

## ASSIGNMENT – USER AND GROUPS.

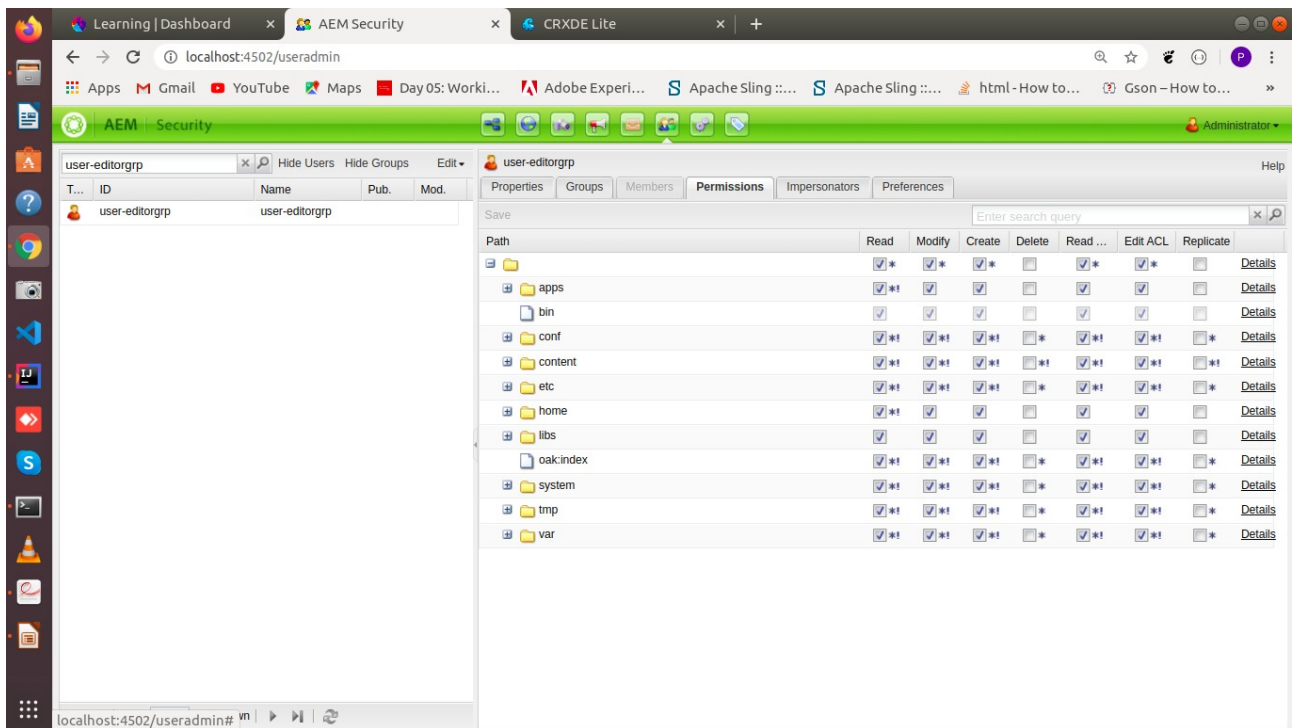

Ques-1 Create two groups(editor and author) and create users of each group.

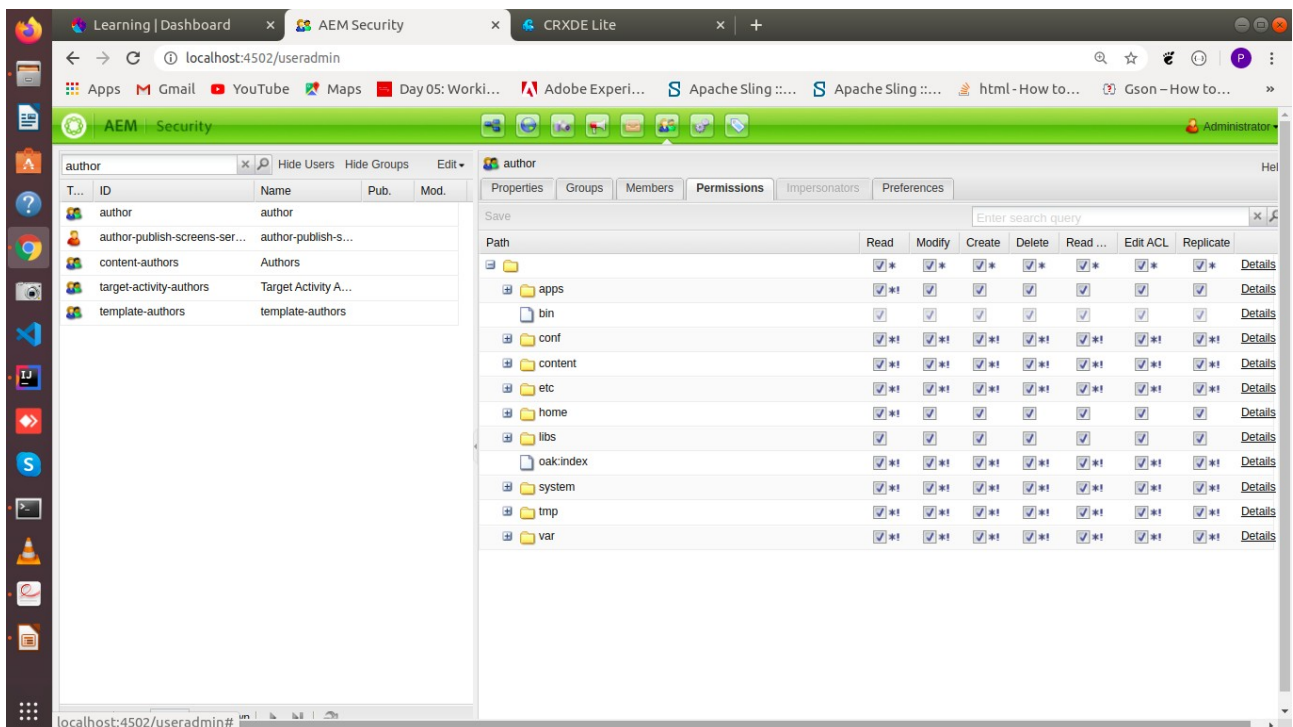

Created editor group with not providing delete and replicate rights.

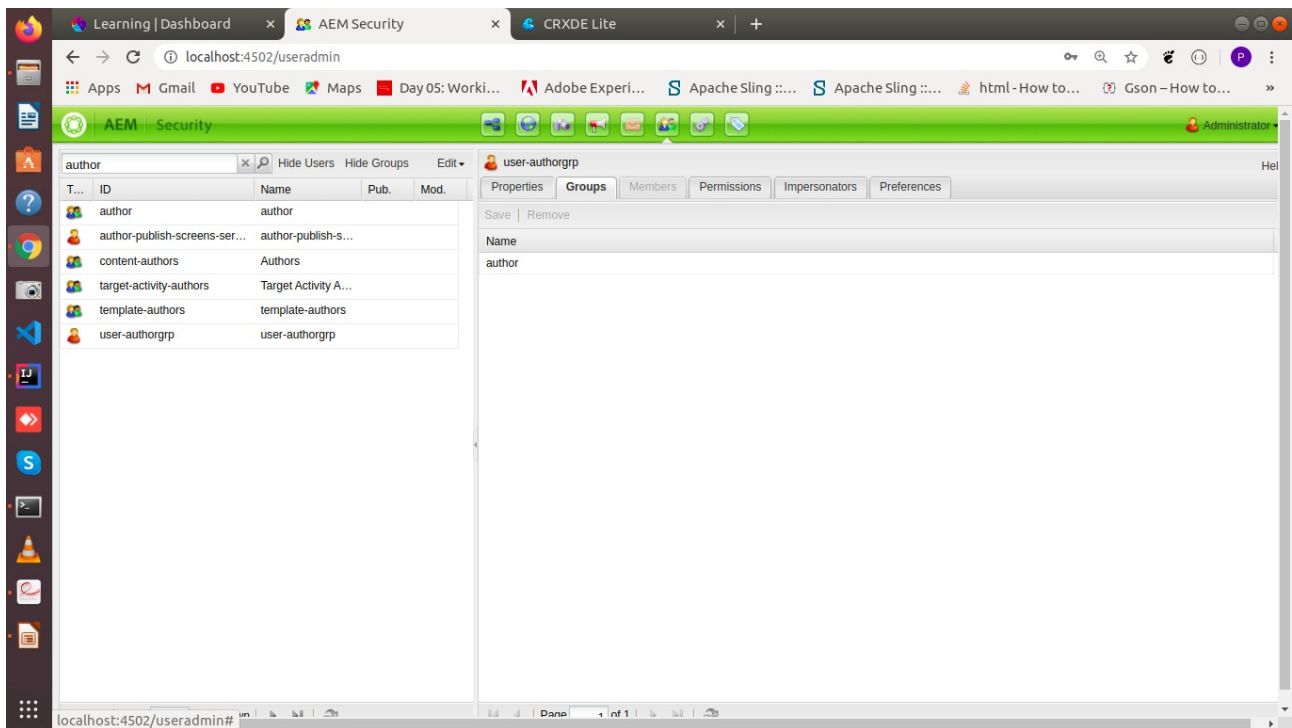

Created user for editor group and added editor as its group.

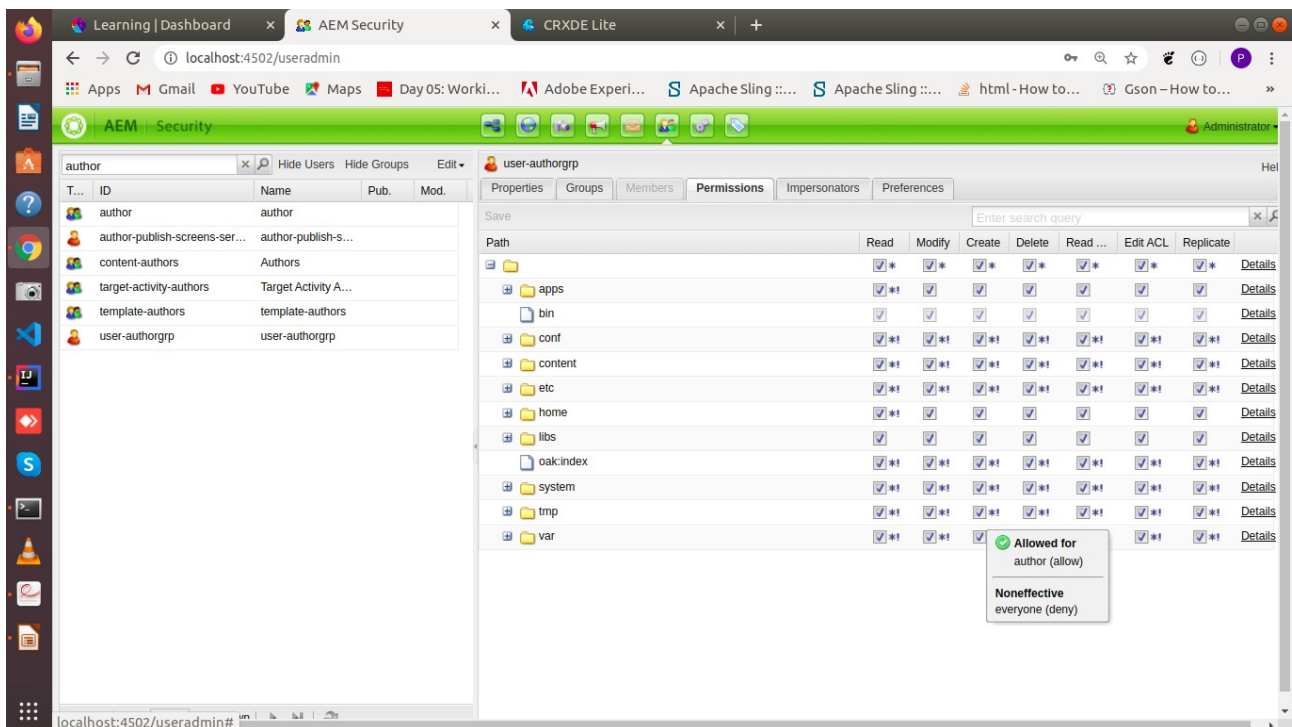

User-editorgrp will have same rights as its group.

Created author group with all the rights.

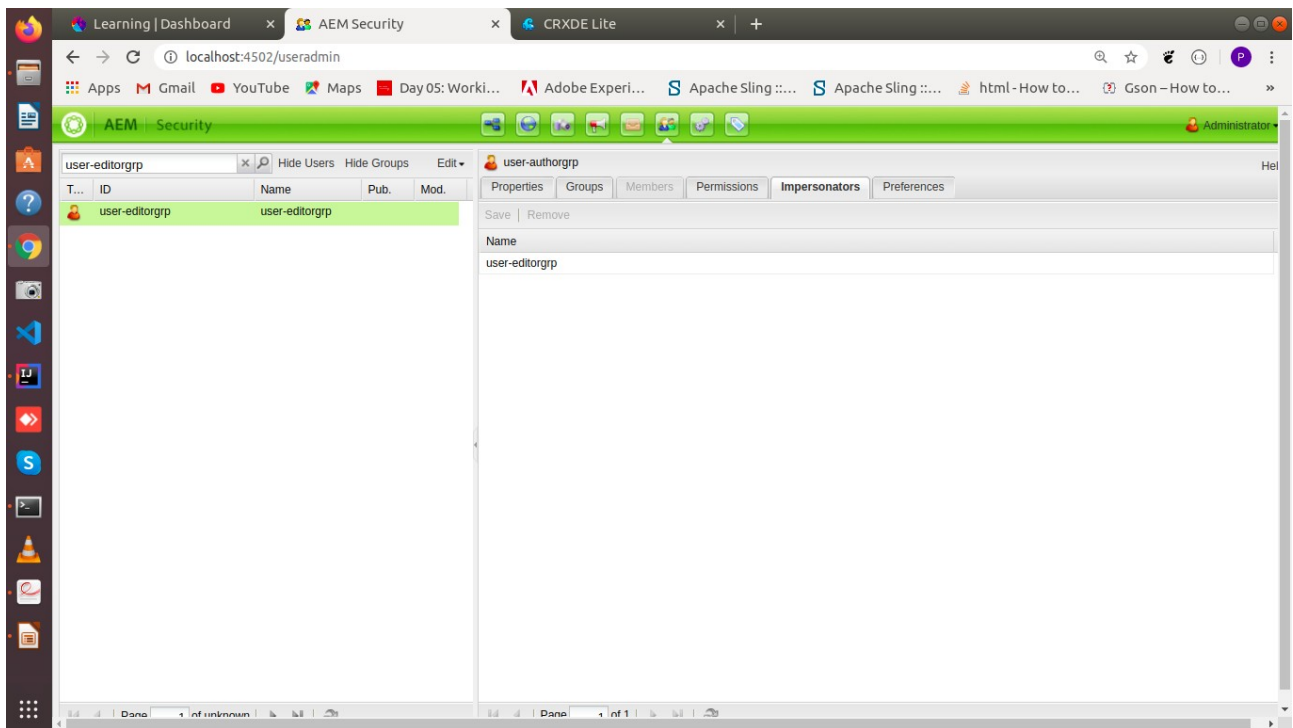

Created user user-authorgrp for added author as its group.

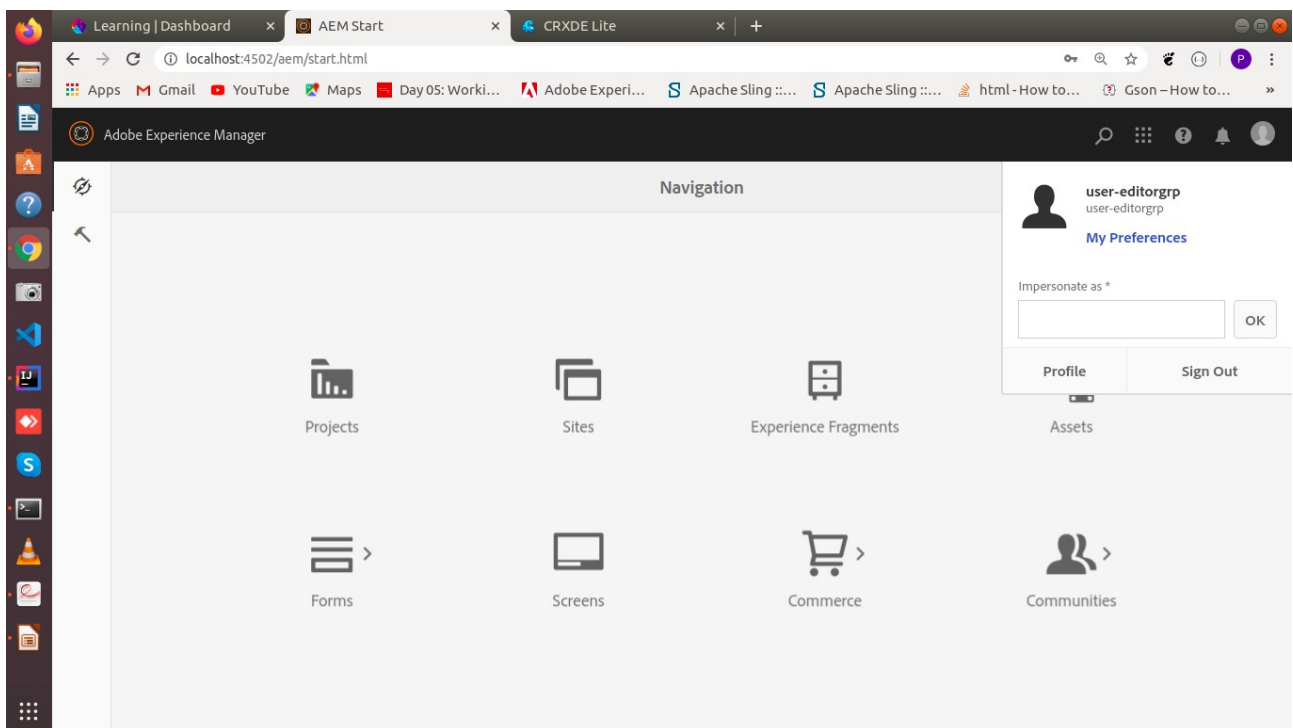

User-authorgrp will have same rights as its group.

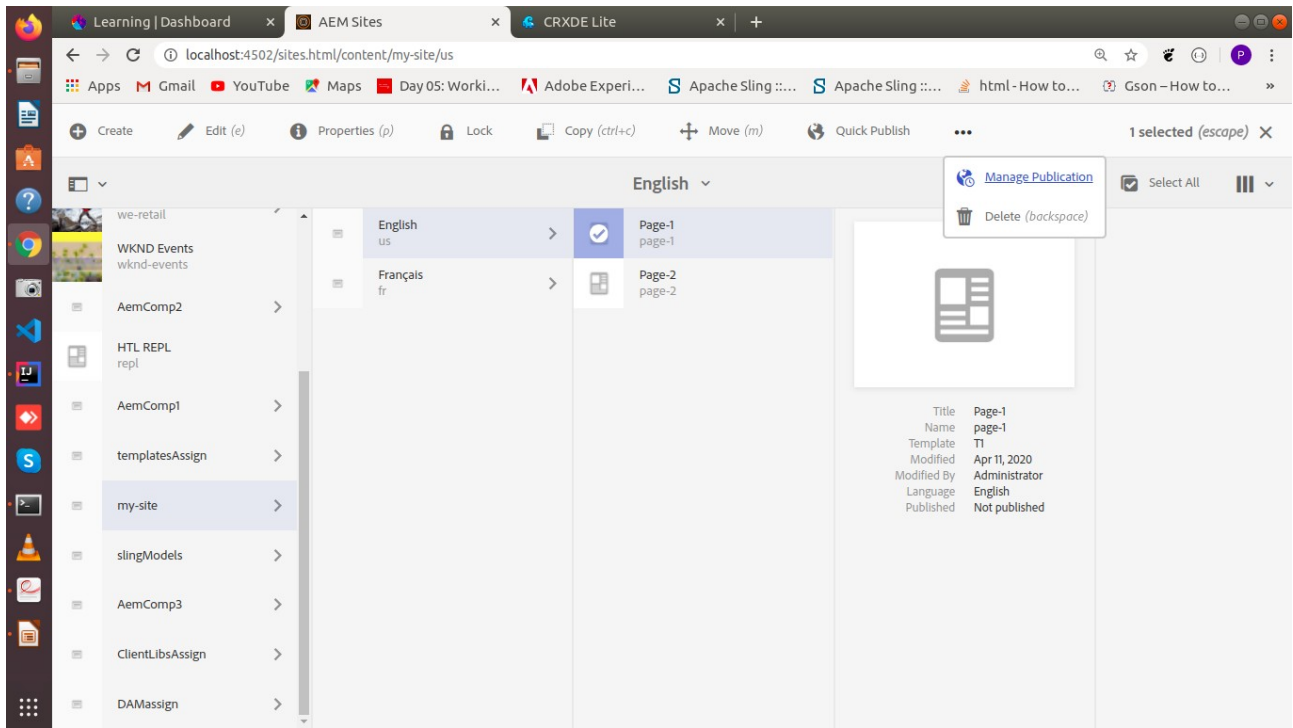

Ques-2 Impersonate a user of editor gp to author gp and test if you can replicate or delete the pages.

Impersonated user-editorgrp into user-authorgrp.

Logged-in as user of editor group.

Now after impersonating as user-authorgrp now user of editor page have delete and replicate rights.
